Available Exam Cram and Valid Dumps - Lead2Pass Exam

**Exam** : 000-559

**Title** : IBM Certified Developer -  
IBM Informix Genero v1

**Vendors** : IBM

**Version** : DEMO

NO.1 When using the Genero Application Server, what is the preferred method for implementing load balancing (to increase capacity)?

- A. The Genero Application Server is multi-threaded and handles load balancing automatically.
- B. Deploy multiple instances of the Genero Application Server on different servers, and use thirdparty tools to implement load balancing.
- C. Deploy multiple instances of the Genero Application Server on a multi-CPU host. Configure load balancing among these various instances within the http.conf file.
- D. Place the Web Server and the Genero Application Server dispatchers on one host, and the VMProxies (and the DVMs they instantiate) on separate hosts. Modify the http.conf file to specify the location of the hosts where the VMProxies reside.

Answer: B

NO.2 Which attribute should be set if you need to align fields on the form that are inside different GROUP containers?

- A. STYLE on the field widgets
- B. JUSTIFY on the field widgets
- C. STYLE on the group containers
- D. GRIDCHILDRENINPARENT on the group containers

Answer: D
